

Rafting with 4th Newbury Scouts

Rafting with 4th Newbury scouts is so much fun because once you've built your raft you can try it out on the canal. Rafting is good because you develop team work with other people in your scout troop, it also lets you try out your knot skills and put them into use. When you are rafting it is a race to see who can make it to a point and back, if you fall in then you will have to push your raft into the side a try to get back on, and just hope that the team you are facing fall of to.
